

LOCOMOTIVE BLASTS

William Brady, for fifteen years a car repairer for the L. & N., was killed at Guthrie Friday night while adjusting a piece of machinery. Another car ran down on him, striking his head and killing him instantly.

Engineer Jack Stokes, who was recently promoted, is now running in the chain gang service.

Elmo Shaver, erstwhile fireman of the hill engine at Empire, is now on the South local.

Copier McKeown made a flying trip to Guthrie to see Operator Brooks, who is on the sick list.

The new Providence-Evanville run was installed Monday with Conductor Will Cozart and Engineer Rierdan in charge and Henry Jones flazman.

Operator Prather, who has been night operator at this place for some time, unfortunately failed to deliver a train order and was dismissed from the service of the company.

The I. C. R. R. is preparing to double track its line from New Orleans, it is said.

Gen. Basil W. Duke, who has been connected with the law department of the L. & N. for a great many years is said to be the most absent minded man in Louisville. He has been known to pass his wife on the street without recognizing her, and just the other day his son, who had been absent from the city for some time, returned and was going home on the street car. His father boarded the same car at the next corner and the young man rose extending his hands. "How are you?" said Gen. Duke, as he cordially shook his son's hand, "how is your father?"

Engineer Lock Rowe is on one of the Providence runs while Engineer Giannini is sick.

Brakeman S. A. Alvey is the 3rd man on the Providence run.

Operator McKinley, who has been working at this place nights, has been transferred to Henderson as night ticket clerk.

Operator Blivens, who has been the night man at Henderson goes to the Postal, at that place.

Chief dispatcher of the I. C. at Louisville wants six good operators.

Ed Tanner is now night caller at this place, vice young Donovan of Guthrie.

Time card No. 72, taking effect Monday, Jan. 5th, at 4 o'clock a. m., is the following: "Trains No. 92 and 93 stop on signal at Guthrie, Hopinsville, Earlinton, Madisonville and Henderson for passengers to and from Nashville, Henderson, Evansville and points beyond this division.

The two Providence trains will run as follows: No. 41 arrives here at 8 a. m., No. 42 at 8:40 p. m. No. 77 arrives at 3:40 p. m., No. 78 at 8:40 p. m. No. 79 leaves Earlinton at 8:20 a. m., No. 78 leaves at 4:25 p. m. We give this information for the benefit of the people going to Madisonville, in order they may not get the trains mixed.

There is a new station on the H., two miles of Springfield, led Starke's Rest. All freight cars will whist.

COAL OPERATORS

Will Meet at Louisville Monday Discuss the Big Mineral Display.

TO BE MADE AT ST. LOUIS.

A meeting of the coal operators of the state will be held in Louisville, Monday morning Jan. 12, at 11 o'clock, at Seelbach's hotel, to discuss the movement to have Kentucky creditably represented at the World's Fair. The call for the meeting is signed by thirteen of the best known mine owners in the state and President A. Y. Ford, of the Kentucky Exhibit Association. It has been sent to the officers of every company mining coal in this Commonwealth, and replies received up to this time indicate a very full attendance. In addition to the general call, Capt. L. P. Barnard, president of the Western Kentucky Coal Operators' Association, has issued a special call for his organization for the same hour. It has already given its endorsement to the movement. The coal operators are deeply interested in the enterprise and they are expected to contribute largely to its success. Their subscriptions to the fund will doubtless be large.

Where He Made His Mistake.

New York Times.
This story is told of a certain Colonel Ford, who lives somewhere in Connecticut. The colonel, who is well known for the elegance of his dress and appearance, had occasion to visit some land recently purchased by him. In order to get there quickly he decided to "cut across lots," and so let down the bars of an adjoining field and started across. It so happened that the lot was being used as a temporary pasture for a particularly ferocious bull. Of this Colonel Ford was of course unaware, but hardly had he gone half way across when the bull made his presence known. Now the colonel was a brave man, but the bull was too much for him, and he decided to run. So did the bull, and for a moment only, the colonel landed in the next field, and was picked up by the owner of the bull, who inquired most anxiously as to the extent of his injuries.

As can readily be imagined the colonel was in a towering rage. "How dare you keep such a vicious animal around sir?" he cried. "I'll have you arrested for maintaining a nuisance, I'll—I'll—but here words failed him. "But, sir," broke in the farmer, "the lot is mine, and the bars were up. You had no right to cross that lot in the first place, sir."

The colonel stood amazed, then, "Don't you know who I am, sir?" he asked.

"No, I can't say that I do," answered the countryman.

"I'm Colonel Ford, sir! Colonel Ford, I tell you."

The farmer looked thoughtfully at the perspiring wreck of elegance, and then into the other lot.

"Indeed, sir," he said. "Why didn't you tell that to the bull?"

The Power of the Press.

A rich man who made his money in lumber bought a newspaper recently. On Monday the Washington correspondent of this paper received this telegram: "Have the United States Supreme Court meet at 11 o'clock instead of 12, so we can get their decisions in our noon edition." Editor and Publisher.

Call on THE BEE for job printing

THE MINES.

"Savoyard," in a recent Washington letter, writes this of John Mitchell and the anthracite strike:

"There were 147,000 men mining hard coal in the State of Pennsylvania last May, and along comes a man of the name of Mitchell, and he orders these men to disobey God—"In the sweat of thy face shalt thou eat bread, till thou return unto the ground; for out of it wast thou taken; for dust thou art, and unto dust shalt thou return." Now this man Mitchell ordered 147,000 men to nullify the first clause of that fiat of Almighty God and live on the sweat of somebody else's face, and indulge such pleasantries as murder, arson, spoliation and things like that. They did as he said, and his voice was that of a King. Now such a thing as that may be all right; but I would prefer that the man who gives such orders have a granddaddy. I want him to be on horseback. I would rather he had a crown on his head, a spur on his heel, a sword by his side and an army with banners to support him. It is an outrage that a fellow on foot should cut such capers and shines."

That our coal deposits are the result of bacterial action, seems probable from the investigations of a French microscopist, B. Renault, who has devoted 30 years to a study of fossil microbes. He finds these in great quantities in all coal, and he believes that the transformation of plant tissue into the form in which we now find it in these deposits is largely due to their action. It has been generally supposed that coal, hard and soft, are but successive stages in the same process of transformation, but, according to M. Renault, they are due to the action of different kinds of bacteria. The variety that determined the formation of hard coal is extinct, and hence we need not expect any more to be formed. The decomposition of woody tissue in the marshes of today gives us only peat. This theory appears to accord with the results of laboratory experiments, for all attempts to change peat artificially into coal by means of heat and pressure have hitherto been failures.—Success.

A Madisonville correspondent recently sent out a story to a Kentucky daily that told of alleged large operations of the Gordon Land Co., of that place, which was said to be engaged in securing options on coal lands for the benefit of the St. Bernard Mining Co. This story, in condensed form, found its way into the Black Diamond, published at Chicago. The Black Diamond publishes a correction of this story, stating that W. L. Gordon, president of the land company, has written the editor "that the report is absolutely false."

No. 9 mine was visited last week by a small crowd of sightseers. The party was composed of Misses Louise Klee, Mabel Gough and Maude Gough, and Mr. Frank Gough, formerly of No. 9. Misses Klee and Mabel Gough are from Henderson and had never entered a mine before, so it was quite a sight to them. After wandering around viewing the sights, of a small portion of the mine the crowd left, as it was nearing quitting time. The young ladies were well pleased with their trip and expressed a

desire to revisit.

No. 11 mine received a crowd of visitors last week. The crowd was chaperoned by Mr. Charles Heppel, an employee of No. 12. The crowd was very anxious to visit the mine, as it was the first sight to some of them. After making their descent by the cage of the shaft, they were shown the most important objects of curiosity, such as the machines, drills, etc. The crowd was composed of Mesdames Clorren, Bunin, Griggs and Heppel and Misses Griggs, Clorren, Curtis and Foley.

Trip-rider Ermit D. Wynt was on the sick list a few days last week.

The representative of the Ingersoll-Sergeant Drill Co., of New York, was in the city last week. He is giving the mining machine runners a few lessons in the handling of the Sergeant machine.

New Year's day and its expected effect on all the mines to some extent. Those that did not suspend operations were crippled on account of men, but managed to run.

Chas. Heppel, one of the employees of No. 11 mine, bruised his hand against the face of the coal. It was only a small cut at first, but terminated in a severe one. He has lost a week's work on account of it.

U. Hinrich Hanna, of the Earlinton Iron Works, was engaged at the Arnold mine last Sunday. Mr. Hanna is an expert at his trade and is giving satisfaction.

A runaway happened in No. 11 last week. The driver pulled the cars up the grade and the safety that holds the cars on the grade was not put in position, so the cars started back. They ran a distance of 1,000 feet and stopped on a curve against four more cars. One car was torn up as the result of the runaway.

LOUIS J. OSWALD COMES OUT ON TOP.

Not to Blame for Strike Causing Coal Famine in Princeton.

Copies of the Princeton, Ind., papers have been received which free the Princeton Coal & Mining company from blame for the recent coal famine there, resulting from the ten day strike. The Clarion-News says:

"The miners' organization, through its legally appointed committee, caused work to be suspended on the claim that the company's scales were unfair to the miner. Realizing the demand and necessity for fuel, the coal company, though satisfied that the scales were correct, offered to grant any additional weight allowance within reason until the scales could be officially tested. The overtures of the company were not accepted and work was suspended. Vice President Boyles, of the state miners' organization, came to adjust matters and determine the fault. The scales were tested and were found to be correct and Vice President Boyles exonerated the company and charged the fault to the organization."

Died in Colorado.

News has come of the death of Mrs. Luther Norland, nee Francis Atkinson, of La Jara, Colo., on Dec. 31st. Mrs. Norland was cousin of Mr. J. B. and Geo. O. Atkinson, and had lived in Colorado for many years. The death seems to have been sudden and no particulars were received with the first announcement.

GOMPERS' EIGHT-HOUR BILL.

Evils Strongly Stated by President of National Association of Manufacturers.

WAS "IMPORTED FROM LABOR-CURSED ENGLAND."

Gompers First Tried to Apply the Bill to Railroad and Steamboat Service.

CONGRESSMEN AFRAID OF THE "LABOR VOTE."

"Average Labor Agitator is an Inhumanite, His Hand Against Every Man."

The President of the National Association of Manufacturers, Mr. B. M. Parry, has made public at Indianapolis the following official statement, in which he states the attitude of the association on the subject of the eight-hour law bill, and strongly arraigns labor unions:

"The National Association of Manufacturers is opposed to any law which means the undermining of the commercial stability or the industrial vitality of the United States. It is opposed to the terrible anti-union bill now pending in Congress, which proposed law has been imported to this country from labor-cursed England. This law has almost destroyed the English manufacturer, as it is a legalization of the picket and the boycott. The attempt to force such anarchistic legislation upon the employers of this country will be resisted to the last. The National Association of Manufacturers is also unalterably opposed to the so-called eight-hour bill introduced by Samuel Gompers. This bill, if it could be put into effect, would be a radical and destructive assault upon the prosperity of this country. What in the nature of things it would be possible to put such an absurd law into practical every day operation, yet it would have the effect of dislocating business conditions, causing an industrial paralysis in this country, the like of which we have never experienced. Such a bill would open the way to a black-mail of the heavy iron, steel and shipbuilding interests which are engaged in the manufacture of government supplies. They cannot run on an eight-hour basis from the physical nature of their work. If the power was put into the hands of the labor agitator to penalize them for working their employees over eight hours per day, then one of two things will be necessary—an attempt would have to be made to have the law declared unconstitutional. If this failed it would be necessary to bribe the labor agitator in order that the wheels of the factory might be permitted to turn. I do not know whether or not this would fail.

"By the terms of this proposed eight-hour bill an employer is punished \$5 per day for each and every man who is permitted to work over eight hours. In turning out iron and steel supplies there is what is called a 'run' in furnace work. These 'runs' do not adapt themselves to any man-made laws. The experienced eye of the master iron worker is kept glued at a little hole at which he watches the molten mass in the blast furnace. This 'run' is a child born from the experience and skill of the high-class workman. To take his eye away from it for a moment might mean the loss of thousands of dollars. But here comes along this wretched eight-hour law. If this skilled workman has been watching the furnace for eight hours, then at the very stroke of the clock, and at the most critical moment of the 'run' he must desert his post and turn it over to another man to carry on the work for the remaining two or three hours. How could such an arrangement be carried out? How can it be possible to secure two shifts of workmen to carry on the operations of the average manufacturing establishment? The labor unions, through their apprentice system, are driving thousands of boys to the streets, to the reform school and the penitentiary. They have so reduced the number of skilled workmen that it would be impossible to find two shifts of men to carry on the work of

the country. "The eight-hour day proposition is the result of socialistic agitation in Europe. Many trades in England have by special arrangement secured a nine-hour day, and even this has had the effect of greatly diminishing the competitive possibilities of the English manufacturer. The more labor put into an article the more costly it becomes. More labor, according to the eight-hour day, means four labor—less labor at a higher price, for it requires more men to turn out the same amount of work. Whenever the price of a product is put up the demand falls off. All the theories in the world will not controvert this fact.

"It is no doubt ideal as a theory to divide up the 24 hours of the day into eight hours for work, eight hours for pleasure and eight hours for sleep, but, unhappily, the ever varying condition of human necessity makes it impossible to apply any such hard and fast rules. The great achievements of the world have been so far accomplished by individualism, i. e., the giving of each man an opportunity to do the best that is within him. Think of exchanging this system for the dethroning of the depths of socialism or the system of uniform effort. Think of trying to compress all the men in the world into the same mold! Fancy the state first of all men the number of hours for work, or the wage per hour, or the price of potatoes or any similar absurdities, and doing it at the instigation of men who are members of so-called omnipotent unions, which they are taught to believe can defy political economy and say to the laws of nature: 'Thus far shalt thou go and no further!' I say, fancy the state saying: 'The doctor who is visiting the hospital, the clergyman on his way to administer the last consolation of religion to the dying, to the farmer who is getting in his harvest out of tomorrow's rain, to Paderewski, who finds fifteen hours a day hard practice, necessary to secure and retain that skill for which he is famous, to the student who burns the midnight oil, to the large employer of labor, whose often means a working day of 24 hours—I say, fancy the state saying to any of these men (or to any man bent on achieving greatness), 'You must work over the limit of the whistle blows!' Why, if these agitators could succeed in queering all humanity into such a puny mold, the folly would only be exceeded by the wickedness of it.

"Suppose that the printers of a newspaper should go to work at 6 o'clock in the evening and at a quarter of 2 o'clock in the morning a terrible earthquake should destroy the city of London or, let us say, the White House is blown up with dynamite. Under the terms of this proposed law the printers would all have to quit work promptly at 2 o'clock and could not get another line of type set. The additional information should come in that the continent of South Africa had been swallowed by the sea. This Gompers bill absolutely prohibits men from working over eight hours for the benefit of their own families. Gompers first made the silly effort to apply the bill to railroad and steamboat service. It was found that some engineers would have to stop their trains 25 or 50 miles from their destination, and that steamboats in coast and inland service would be left helpless far from the shore. The transportation companies naturally made a strong protest, and Gompers was forced to acknowledge that such an idiotic law could not be applied to this service. The transportation lines were accordingly exempted. Gompers, however, did not learn one corner to another. Finally decided to unload the burden of this ridiculous measure upon the manufacturers of the United States, who are producing more wealth for the nation than agriculture. Again, notice that this bill contemplates scaling the hours of labor of the farmer. Every eight-hour bill put upon the books means that the farmer must be taxed that much the harder for every acre he sows the portion of the work unloads that much more taxation upon the farmer. No eight-hour law can ever change the harvest season, there men work 16 hours a day. No eight-hour law can ever bring a farmer to be a benefit to the hard-working milliner, who must earn enough in three or four months to keep her the rest of the year. How grotesque it all is! The eight-hour law is a ridiculous bill should have been buried through the lower branch of

(Continued on Page 8.)

A NEW YEAR'S LOAD

can be had just as easily as at the beginning of the holiday season. We keep this stock

FURNITURE

complete at all times and all orders can be filled promptly and with entire satisfaction to the purchaser.

Resolve to pay no more high prices for good furniture. Our figures prove that the best can be bought here for little money.

Morton & Hall.

SHORT LOCALS

Buy flour and feed at McLeod's.

Miss Nannie Summers entertained a party of friends in honor of her birthday Monday evening. A most enjoyable time was had by all.

If your watch, clock or spectacle need repairs call on C. R. Martin at gallery.

The little child of Bro. Hesson was quite sick Monday but is about well again.

Baled hay and straw cheap at McLeod's.

Henry Jones and mother went to Howell Sunday. They will make that place their home in future as his lawyer will be at Howell.

Mr. McFadden, of Barsness, has been suffering from a severe attack of grippe since Christmas, but is now able to be out.

McLeod's the place to buy groceries.

Mr. Louis Rice is employed at the St. Bernard meat shop, where he will be pleased to see his many friends.

The Junior Filenich Club has been formed by several little girls from 8 to 12 years old. They will meet each Saturday at different homes and play punch to a finish.

Rev. Little, who was here some time ago and held a meeting at this place, is now conducting a revival at Nebo, assisted by Chas. Hesson.

Don't forget to attend the hypnotic show at Temple Theatre Saturday night. It is given for a worthy purpose and you will enjoy it hugely.

Pneumonia and La Grippe
Coughs cured quickly by Foley's
Cough and Tar. Before substitutes.
Sold by John X. Taylor.

A portion of the lumber and brick have been received for the Methodist parsonage and the committee on collections have been instructed to secure all money possible in the next few weeks.

Coming soon, Romeo and Juliette. This is a well-known play of Bill Shakespeare's, and will please any audience when played by a good company.

Mrs. Henry Holland and family, who left here for Hemrod, Ill., some time ago, have returned to this place and will again make this their home. She says Earlington is the best town she has lived in.

The Earlington Iron Works has been equipped with a lot of new machinery of which THE BEE will give a full description in a short time. Mr. Hanta is an enterprising man and is constantly adding to his plant.

Plans Way to Live Long.

The startling announcement of a discovery that will surely lengthen life is made by editor O. R. Downey, of Chubbuck, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that has ever been known for Coughs, Colds and Grippe. It is invaluable to people with weak lungs. Having this wonderful medicine no one need dread pneumonia or Consumption. Its effect is instant and sure certain." The St. Bernard Drug Store guarantees every 5¢ and 1¢ bottle, and gives all bottles free.

This week's statement of the Earlington Bank as published in THE BEE, makes a good showing and speaks well for the management of Cashier Jesse Phillips.

The young lady who wore the white sweater last Sunday was the subject of all observers. In the language of the immortal Nye, "she was full grown, well developed, apricot."

For the benefit of the ladies who were so disappointed on account of Mrs. Currie not coming to Earlington with her husband we will state she has two Belgian hares and four bantam chickens and was afraid to leave them.

Rev. Benjamin M. Currie, of Owensboro, was here two days last week and managed to see all of his members with the exception of three or four. Mr. Currie says he is getting along nicely at Owensboro and is well pleased with his appointment.

Mr. Ott Powers, of Madisonville, has accepted a position with the St. Bernard Mining Company as clerk in the store and has moved his family to this place. Mr. Powers is a young man of ability and we welcome himself and wife to our little city.

Miss Celeste Moore has accepted a position as book keeper with the St. Bernard Drug Store. Miss Celeste is a charming young lady and her many friends predict she will fill the position efficiently. Miss Agnes Burr, who has been book keeper for the drug store quite a while, has resigned her position.

Theatre goers will have a chance to see that pre-eminent attractive entertainment, "The Minister's Son," at Temple Theatre Jan. 30th. This is no doubt one of the greatest plays on the road this season and you will miss one of the opportunities of your life if you miss this. Be sure and engage seats soon and avoid the rush.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past several years and have never known it to fail," says James Prendergast, merchant, Annato Jay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this lung was undoubtedly cured by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia.

For sale by St. Bernard Drug Store, Earlington; B. F. Robinson, Mortons Gap; Geo. King, St. Charles.

It has recently been discovered that a good, hearty laugh will help the lungs. Any one desiring to try the remedy can do so by coming to the opera house Saturday night and viewing Col. Albert Tombs' great hypnotic show. One laugh per minute guaranteed.

Maledictions on the head of the man or woman who invented Filinich. It has caused heated discussions, sleepless nights, neglect of duty and separated chief friends. It causes men, women and children to stay up "till the wee sma' hours" and linger in bed next morning until it causes remarks among the neighbors. It is as game as fascinating that once begun it sticks like a sick kitten to a hot rock, and like a burr in a horse's mane remaineth forever.

Let everyone remember the object of the entertainment Saturday night is to buy a large telescope for the public school. No common school in the Green River country has an instrument of this kind and but few colleges own one. We will soon have one of the best academic school houses in the Western district, and our people should take just pride in seeing it fitted with up-to-date furniture and instruments, and go to the entertainment for the cause as well as to enjoy the innocent but irresistible fun.

George Mothershead, who has been in the employ of the St. Bernard Mining Co. as clerk for a number of years, has accepted a position as manager of the Ohio Valley Coal Company's store at Dekoven, Ky. Mr. Mothershead is a young man of exceptional good habits and a thorough gentleman in every sense of the word, and has the confidence and respect of everyone in Earlington and his many friends congratulate him on his merited promotion.

J. C. Millikan, ex-Marshall of the village of Canaan, Ind., one said: "I can cheerfully recommend Hill's Universal Pills, for I have tried me of the word, and has the confidence and respect of everyone in Earlington and his many friends congratulate him on his merited promotion. These are the best cathartic pills on the market and contain no mercury or minerals. They are a direct shot to the liver and clear away around the great organ and leaves it in a healthy condition. Price 25¢, for sale by all patent medicine dealers in the country."

BLOOD HUMOURS

Skin Humours, Scalp Humours, Hair Humours,

Whether Simple Scrofulous or Hereditary

Speedily Cured by Cuticura Soap, Ointment and Pills,

When All Other Remedies and Best Physicians Fail.

COMPLETE TREATMENT, \$1.00.

In the treatment of torturing, disgusting, itching, scaly, crusty, pimply, blotchy and scrofulous humours of the skin, scalp and blood, with loss of hair, Cuticura Soap, Ointment and Pills have been wonderfully successful. Even the most obstinate of constitutional humours, such as bad blood, acrofolia, insected and contagious humours, with loss of hair, glandular swellings, ulcers, patches in the throat and mouth, sore eyes, copper-colored blotches, as well as boils, carbuncles, scurvy, skin, and sores arising from an impure, impoverished condition of the blood, yield to the Cuticura Treatment, when all other remedies and methods fail.

And greater still, if possible, is the wonderful record of cures of torturing, disgusting humours among infants and children. The suffering which Cuticura Soap and Ointment have relieved among the young, and the comfort they have afforded worn-out and wretched parents, have led to their adoption in countless homes as priceless cures for the skin and blood. Infants and birth humours, milk crust, scall head, eczema, rashes and every form of itching, scaly, pimply skin and scalp humours, with loss of hair, of infancy and childhood, are speedily, permanently and economically cured when all other remedies suitable for children, and even the best physicians, fail.

New Jeweler.

C. R. Martin, with 25 years' experience in his line, is now located at the gallery near depot. Work guaranteed.

REDUCED THE L. & N. ASSESSMENT.

Valuation of Local Railroad Property Received from the Railroad Commissioners.

City Assessor Murphy Wednesday morning received from the Railroad Commissioners at Frankfort the valuations of railroad property in Louisville for taxable purposes. By their valuation the Commissioners have varied about the valuation of Louisville & Nashville property in Louisville \$100,000. The total assessment is \$2,068,339 65, and is divided as follows:

Main Division, L. & N.	\$189,600
Cincinnati Division, L. & N.	306,000
Harrods Creek Div. L. & N.	7,280
Shelbyville division, L. & N.	3,335
Southern Railway	47,229
Ill. Central, short system	150,000
Illinois Central, main system	482,800
Monon	81,200
Baltimore & Ohio	57,400

Wanted.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion, dyspepsia, and Liver Troubles that has not been cured—and who also mean their results, such as sour stomach, fermentation of food, habitual constipation, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try one bottle first. We have never known of its failing. If so, something more serious is the matter with you. Ask your oldest druggist.

G. G. GREEN Webbsburg, J.

A Countryman is Relieved of His Cash.

A white man, whose name was not learned, was held up in the L. & N. yards at Guthrie last night and robbed of all the money he had, \$15, says the Leaf-Chronicle. The thief pulled a gun on the man and commanded him to throw up his hands, which he did without delay. His pockets were then searched and his contents taken.

Needs Should Not Ache.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winton, Va. She writes: "Dr. King's New Life Pills wholly cured my sick headache. I had suffered from for two years. Cure Headache, Constipation, Biliousness, 25¢ at St. Bernard Drug Store."

The Earlington Bee is the best advertising medium in Hopkins County. Try it and see.

PERSONALS

Miss Lizzie Barnes, of Nebo, who has been visiting E. O. Goodloe for several days, returned home Wednesday.

Miss Annie Parker, after a very pleasant visit to her cousin, May Peyton, during the holidays, returned home Saturday, and one young man in Earlington has our sympathy.

Mrs. C. H. McGary visited in Evansville last Wednesday.

Frank Orr was on the sick list one day last week.

Little Kimer Orr has been quite sick for several days but is improving now.

Mr. Howard Poe, of Arundel, visited the family of Duke Williams several days last week.

Mrs. Jennie Moore and daughter Miss Celeste returned from a pleasant visit to friends and relatives at Greenville Saturday.

Mr. Wallace N. Wilson of Danville, visited friends here a few days last week.

Miss Nellie Carlin, one of the efficient teachers in the public school, returned from Carlville Saturday where she spent the holidays with home folks.

Col. John B. Harlan, of Lagrange, was in the city one day this week.

Jas. Morlan, of THE BEE force, spent Sunday in Hopkinsville visiting friends and relatives.

Miss Flossie Orr and Bertha Orr were in Madisonville Saturday shopping.

Dr. and Mrs. Amplas Sink returned from St. Louis Sunday.

Miss Almer and Elizabeth Hanna were in Madisonville Saturday.

Mrs. Maggie Fenwick is visiting friends and relatives in Howell.

Mr. Julia Brown, of Howell, who has been spending several weeks with relatives at this place, returned home Monday.

Rev. B. M. Curry, of Owensboro, was here last week to officiate at the Ashby-Sink wedding. He went here to Nebo to visit relatives.

Rev. Chas. Hesson, wife and children, of Letchfield, were here Sunday. Bro. Hesson filled his regular appointments Sunday morning and night.

John X. Taylor and wife returned last week from a visit to relatives in Ohio Sunday.

A. D. Bask and family, of Madisonville, were here last week to attend the Ashby-Sink nuptials.

Miss Carrie Major, a pretty young lady of Dawson, who has been visiting the Misses Ashby for some time, went to Hanson Monday on a short visit to relatives. She will return to Dawson from there.

Mrs. Jargenson and daughter Susan, of Princeton, are visiting the family of Dr. Pete Davis this week.

R. J. McCulley was in Madisonville Saturday on business.

Miss Louise Klee and Mabel Gough, of Henderson, who have been visiting relatives here for several days, returned home Sunday.

Mr. and Mrs. J. Hoffman, of near this place, have returned from Sullivan, Ind., where they have been visiting their daughter, Mrs. John Reese.

Will Sink, of Madisonville, and Carl Blanks, of Mortons, left Sunday to take a course in Bryant & Stratton's business college.

Jas. Morgan, of this place, went to Evansville Sunday.

Thurman Rudd spent the day in Hanson last Sunday.

J. R. Dean was in Madisonville Monday purchasing hogs for the meat market.

Mrs. Wm. McCarty and her son-in-law, Wm. Hughes, of Morganfield, were here this week.

Mr. Thos. Finley, of Madisonville, was in the city Tuesday.

John Herd, of St. Louis, was in the city this week.

The following parties went to Madisonville Monday night to see Rose Coghlin in "Alice of Old Venice." Dr. and Mrs. E. A. Chaten, Mrs. Victoria and daughters, W. F. Sheridan and Miss Black.

Jesse Harned, the popular Louisville drummer, was in the city Tuesday.

Dr. Sink and wife went to Madisonville Tuesday to visit friends.

J. R. Nash was in Madisonville Tuesday on business.

Mrs. Melvin, of Union City, Tenn., was the guest of Mrs. Harriet Browning one day this week.

Miss Bridget Burke left for Nashville Saturday to enter St. Cecilia Academy.

Miss Myrtle Griffin is visiting her aunt, Mrs. Ausubach, in Dawson this week.

A Happy New Year

WE wish you a Happy New Year and trust it will be the best you have ever seen and the worst you will ever see. Now that the hurry and bustle of the Christmas holidays are over you will need a great many things that you did not think of before. If it is

Shoes, Furs, Dress Goods, Hats, Caps, Overcoats, Men's or Boy's Suits, Ready-to-wear Skirts, Underclothes, Table Linen, Lace Curtains, Dress Trimming

or anything in the Dry Goods line don't forget you can find it at BISHOP & COMPANY'S store. We keep everything that should be kept in a first-class dry goods store and absolutely guarantee that all of our customers receive full value for their money. During the year 1903 we expect to keep abreast if not a little ahead of the times, and the quality and variety of our stock will be second to none in Madisonville. We desire to thank you for your liberal patronage in the past and assure you we will appreciate a continuance of the same during this year.

BISHOP & COMPANY Madisonville, Kentucky.

Will Feller, who has been at home during the holidays, has returned to Lockyear business college, at Evansville, Ind.

Miss Katie Robinson has returned from a pleasant visit to friends in Bowling Green, Ky.

Bessie Coyle is on the sick list this week. It is thought she is taking the measles.

Win. Walton has been very sick for the past few days.

Conductor Fogle says he places THE BEE and Corban News next to the Bible.

Mr. Ernest Brashear is now employed by J. M. Victory & Co., and will be pleased to see his friends at any time.

Master Otto Martin and sister, little Miss Bertha, of Cromwell, are visiting the family of John X. Taylor this week.

One Hundred Dollars a Box is the value H. A. Tidale, Sumner, B. C. places on Dr. Wm. W. Welch Hazel Salve. He says: "I had the piles for 30 years. I tried many doctors and medicines, but all failed except Dr. Wm. W. Welch Hazel Salve. It cured me." It is a combination of the healing properties of Welch Hazel with antiseptics and emollients; relieves and permanently cures blood, bleeding, itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases.

Sold by John X. Taylor.

Low Rates to Southwest.

On the third Tuesday of each month the Cotton Belt Route will sell one way and round trip tickets at one half the regular rate plus \$2.00 to points in Missouri, Arkansas, Louisiana and Texas, allowing stopover going, and return limit of 21 days.

This unusually low rate is made for the purpose of inducing immigration to the Great Southwest. It is believed by those who have made a study of conditions that no territory on the American Continent offers equal opportunities for farming, stock raising, fruit and truck growing, or any of the many profitable enterprises that are building prosperous towns and cities.

To the person of limited means desiring a home, this section of country offers greater inducements than perhaps any place on earth. The fertility of soil, exceedingly

THOUSANDS SAVED BY DR. KING'S NEW DISCOVERY

This wonderful medicine positively cures Consumption, Coughs, Colds, Bronchitis, Asthma, Pneumonia, Hay Fever, Pleurisy, La Grippe, Hoarseness, Croup, Throat, Croup and Whooping Cough. No cure, No Pay. Price 50¢ & \$1. Trial bottle free.

Frank W. Floyd

WAS SWORN LAST THURSDAY.

HON. FLEM GORDON.

Last Thursday morning, at Madisonville, Hon. J. F. Gordon took the oath of office as Circuit Judge of this Judicial district. Judge Gordon is a native of Hopkins county and is a first class gentleman in every respect. Having been admitted to the bar over 18 years ago he has since risen high in his profession and possesses the necessary qualifications to successfully fill his present appointment. For a number of years he was a member of the law firm of Gordon & Gordon, but severed his connection with them two or three years ago and has since been connected with W. J. Cox in the law firm of Cox & Gordon.

PROOF AT LAST.

Letter Just Discovered That Tells Where J. R. Mothershead Lost His Life in Battle.

OFFICER, IN FIFTH MISSOURI INFANTRY.

Brother of Dr. N. G. Mothershead Killed by Shrapnel in Front of Atlanta.

Since the civil war tore the country asunder and bound the pieces together again in stronger and indissoluble bonds, the exact fate of many a brave soldier has been unknown, and the fate of many will remain unknown till the last day.

Fortunate are those who are able to discover the facts about the end and last resting place of their loved ones lost in battle. A discovery of this kind has just been made with reference to J. R. Mothershead, a brother of our townsman, Dr. N. G. Mothershead, who was killed during the war. The date and place and manner of his brother's death, however, had never been positively known to the Doctor until an old letter from a comrade was unearthed a few days since by Mr. Thos. D. Osborn, of Louisville, who is a cousin of Dr. Mothershead.

This letter was from P. H. Gill and was written "In line of Battle before Atlanta, August 8, 1864." It tells of the killing of Mr. Mothershead in a skirmish with the enemy on Aug. 6, '64, when he was struck with shrapnel above the right temple and lived only 15 or 20 minutes. The writer spoke most tenderly of the soldierly and many qualities of his dead comrade and of his excellent standing as an officer. He told of the burial with military honors in the cemetery near by. He told, too, how they both had enlisted in the 5th Missouri Infantry on May 6, 1861, when Company B, First Missouri Brigade, was 62 strong as they went into service. After the death of Mr. Mothershead there were only two of the original company left to tell the story. And the writer, Mr. Gill, is known to have been

killed in battle only a short time after he penned the letter that has after so many years brought the truth to the surviving members of the Mothershead family. Joseph E. Mothershead, son of the Doctor, is a namesake of his uncle with which this history deals.

"Mrs. Wiggs of the Cabbage Patch." Not so very long since a little book made its appearance, having the rather interesting title of "Mrs. Wiggs of the Cabbage Patch." It was indeed a little book, being not at all voluminous, and capable of being read through easily in several hours. But it contained an elegant and highly original style, and its humor and pathos were happily blended. To the genuinely sympathetic, however, its laughs were but preludes to tears, because of the touching little life story the book so faithfully depicted.

The scene of the story is in Louisville, and the philosophy "Mrs. Wiggs" is a member of one of those families who live in a poor cluster ofrickety houses in a little corner of the city. A young society girl, referred to in the beginning as "the Christmas lady," who goes down into the "Cabbage Patch" at Yuletide on a mission of charity, is the central figure, barring of course, Mrs. Wiggs. And by the way, the Christmas lady is one of the two chief characters in a pretty little love story that bobs up just enough to make it interesting and enjoyable.

The book had a great sale, and, best of all, it made a great impression. Its author's depicting with matchless hand the suffering of the honest poor, has had an almost magical effect in Louisville and other cities as well. It has stimulated people to deeds of charity where charity was lacking, and it has accomplished what it has set out to do. It has taught many that Christmas consists not merely in the gift and well-to-do exchanging costly gifts among themselves, but in causing at least a little sunshine in the hearts of seeming despair. It has served three high aims in literature; it has entertained and has enabled its readers, and helped a class that needed helping. Its object was a humanitarian one and it has accomplished it a hundred fold. What higher mission can literature have? It is better to do as Mrs. Wiggs has done than to excite the mind with an impossible and foolish plot, replete with sentimental gush, or relate some thrilling story of a darened desperado and lionize common rascality and outlaws.

All honor to Mrs. Wiggs and her little book. May its sales ever grow and its influence ever better mankind.

ATTACKED BY UNIONISTS.

Coal Dealer at Henderson Assaulted on Quiet Street by Two Big Men.

R. A. POWELL SELLS ST. BERNARD AND OTHER COALS.

Sounds Left When They Saw Other Men Coming.

Mr. R. A. Powell, a coal dealer of Henderson, Ky., who sells St. Bernard and other Kentucky coals, was a victim of a murderous assault on the streets of Henderson Sunday, for no cause except that he is a dealer in coal mined by non-union labor. Mr. Powell has been in the coal business for some years and last fall took over the business of John C. Atkinson who was for years the sole representative of the St. Bernard Mining Company; Powell adding then the St. Bernard business to his agency. Mr. Powell is a son of Hon. J. H. Powell, the present mayor of the city of Henderson.

Mr. Powell tells the story of the assault in a letter dated Monday, Jan. 5, as follows:

"I would have written you yesterday but was suffering with my head. I was struck in the head yesterday by a union man, and for no cause. Two larger men than myself wanted to know if I had a union badge. I did not know the men. They said I walked by them as if I thought they were dirty, and they would learn me something. They caught me and I think would have killed me, but saw two men coming up and left. It was on a quiet street and no one around when they caught me. I was unarmed. They have not been caught."

New Century Comfort Millions are daily finding a world of comfort in Bucklin's Arnica Salve. It kills pain from Burns, Scalds, Cuts, Bruises, congers Ulcers and Fever Sores, cures Eruptions, Salt Rheum, Bolls and Felons; removes Corns and Warts. Best Pile cure on earth. Only 25c at St. Bernard Drug Store.

LOUISVILLE, - - KY.

Who Are the Eight Thousand?

(By W. W. Smith, A. M., LL. D.)

The second edition of "Who's Who in America," (from the press of A. N. Marquis & Co., Chicago) contains 1,800 pages of brief biographies, without eulogy, criticism or comment, of such persons now living in America as have become noted as factors in progress and achievement of the age. "Endeavor has been made," say the editors, "to include all Americans of more than local note in all lines of useful effort. No name is inserted or omitted for financial considerations; the book is sold on its merits.

With a view to determining what effect education of the various grades has had on success in life, effort was made to ascertain the school training of each of these men and women "of more than local note" and 7,852 of their United States list were thus educationally classified.

According to the best estimate we can make from the latest census returns there are in the United States 40,782,007 persons over 21 years old. These are divided educationally about as follows:

Class 1. Without school training.....4,088,498
Class 2. With only common school training.....32,862,951
Class 3. With common and high school training.....2,165,357
Class 4. With college or higher education added.....1,071,201

Now the question is, how many of the 8,000 distinguished citizens of the United States in the Who's Who list came from each of these classes.

The 4,088,498 of class 1 furnished.....31
The 32,862,951 of class 2 furnished.....808
The 2,165,357 of class 3 furnished 1,245
The 1,071,201 of class 4 furnished 5,768

It thus appears:

1st. That an uneducated child has one chance in 150,000 of attaining distinction as a factor in the progress of the age.

2d. That a common school education will increase his chances nearly four times.

3rd. That a high school training will increase the chance of the common school boy 23 times, giving him 87 times the chance of the uneducated.

4th. That a college education increases the chance of the high school boy nine times, giving him 219 times the chance of the common school boy and more than 800 times the chance of the untrained.

It is a surprising fact that of 7,852 "notables" thus gathered, 4,810 proved to be full graduates of colleges.

From the nature of the case it cannot be claimed that these figures are exact, but they are based upon the most reliable government statistics and the necessary estimates have been made with care. It is also doubtless true that other circumstances contributed to the success of these college trained men, but after all reasonable allowances are made the figures still favor the conclusion that the more school training the child has the greater his chances of distinction will be.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. Sold by John X. Taylor.

NOTES OF THE MODES.

Woolen Fabrics for Winter Costumes and Capes—Attractive Fur Decorations.

Woolen diagonal fabrics for the winter are in all possible variations. In some cases the diagonal stripes are formed by small colored tufts, in others they are in two distinct colors on a shaggy ground, on which silky camel-hair threads add much to the effect in the form of short tendrils branching out from the diagonal lines. In burred fabrics the shot effects differ from those worn last spring in so far as the lines are finer and run diagonally in both directions, forming small tasteful check patterns in soft all-wool weaving, that will make pretty costumes for general wear all winter, reports the New York Post.

Rough stylish Scotch weaves, bourettes and soft fleecy French wools are used in rather light beige, tan, mode, fawn, or tuckered white satin, finished with gold braid and buttons, and are likewise entirely without trimming, save for edges of silk stitching. Muscovite silk undersleeves and Russian vests are new for costumes of rough fabric that have no conspicuous design in their weaving. The camel's hair stuffs in pale swallow blue, old rose, orchid mauve, and chestnut brown are very fashionable, with their surface covered with long silky hairs in white or steel gray.

A handsome dinner dress of Russian green brocade is made with a princess back and a grided front, with a fancy vest showing between. The skirt is rather narrow in front, but widens into a deep corset on the sides, arching still higher at the back. It is made of extremely fine cut jet laid over pale rose-colored silk. The shoulders seams are slightly lengthened. The close upper sleeves are of the brocade, with turn-back cavalier cuffs of the jet laid over the delicate silk. The gown is lined throughout with pale pink taffeta shot with sea-green. The gracefully hung skirt is in seven-gore shape, and wholly untrimmed.

Many of the winter coats, capes and redingotes have the protective standing collar cut in one with the garment; that is, without any seam at the neck. This method gives a certain grace and an appearance of length that are very improving in effect.

Some very attractive examples of fur decorations were seen on the new street costumes which the first few cold days of the season brought to light. One, by way of illustration, was of Danish blue cloth, with three graduated bands of otter fur around the skirt, worn with a matching fur jacket that opened in front over a vest of white camel's hair figured with silk spots of brown and fastened with handsome jeweled buttons.

HE KNEW THE STORY.

And Broke In and Told it All the Most Interesting Part, Which He Didn't Know.

The man who always anticipates when another is telling a story was the victim, and this is the way it happened, writes Elliott Flower, in the Chicago Post.

"Did you ever remember that you'd forgotten something?"

"And fall utterly to remember what it was you had forgotten? Why, of course. Everybody does that."

"Did the recollection of what you had forgotten suddenly dawn upon you?"

"At the most inopportune time? Certainly. That's the way the way."

"Well, I had that experience a short time ago."

"I know the story."

"Oh, you do?"

"Unquestionably. But go ahead and tell it, anyway."

"We've all been there. After you had boarded the train and were speeding along at a rate of 60 miles an hour you suddenly remembered what you had forgotten."

"You've hit it."

"I told you I knew the story. It's one of the ancient hard-luck tales."

"Oh, it is?"

"Sure it is. I can tell it to you down to the last detail—all except the sun going away on a train, having been told to my neck in business that kept me worried."

"I quite understand. So many deals on hand that you knew you'd forgotten something."

"I did."

"And you couldn't remember what?"

"I couldn't."

"You cudgeled your brain before boarding the train, but failed utterly."

"That's it."

"Oh, I know that story like a book. We've all been there. After you had boarded the train and were speeding along at a rate of 60 miles an hour you suddenly remembered what you had forgotten."

"You've hit it."

"I told you I knew the story. It's one of the ancient hard-luck tales."

PREVENTION OF TYPHOID.

Dr. ASA FERGUSON, a London physician, announced on Christmas day that lemon juice will destroy the typhoid germs in water, and Chicago scientists have since proven the fact by careful tests. It is now authoritatively stated that a few drops of lemon juice put in a glass of water will destroy these germs almost immediately. With a little precaution it seems now not a hard matter for most people to avoid the danger of typhoid, nearly all of which lies in the water we drink. The use of a little lemon juice is a very pleasant and simple precaution but is not always practiced or desirable. Everybody, however, can boil their drinking water. The better way by far is to boil and filter or, best of all, to distill all water for drinking purposes. But boiling will do. With every other possible precaution against the pollution of drinking water in cities and towns the danger cannot be avoided. Water supplies become polluted in the most inexplicable and surprising ways, and where it had been thought every care was exerted. The danger is always present but these simple preventives should become universally known and adopted. Typhoid and other germs are killed by high temperatures and the easy, every day process of boiling prevents all danger from this source. This much at least should be done in towns and cities and by these commonplaces, few remedy many lives may be saved.

LACK OF PROTECTION DENOUNCED.

Pennsylvania law, if such is the law, under which the counties do not pay Deputy Sheriffs summoned at the request of the companies, has received the vigorous denunciation of the official head of the anthracite coal strike commission. On Tuesday Chas. Schadt, the Sheriff of Lackawanna county was cross-examined before the commission now in session at Philadelphia. A dispatch says:

"A statement from his attorney to the effect that according to Pennsylvania law, the counties do not pay Deputy Sheriffs summoned at the request of the companies, but that a company is obliged to pay for protection when it demands it, surprised Chairman Gray, who, as he straightened himself in his chair, said: 'I am not familiar with such an un-American law. When the county or the State relinquishes the duty of maintaining and protecting life and property and keeping the peace, then they are open to criticism.'"

This alleged Pennsylvania law, thus authoritatively denounced as "un-American," is in exact line with the interpretation, which certain officials and attorneys attempted to put upon Kentucky law in the recent suit of the coal operators of Hopkins county to recover an account representing a small portion of the total cost of the operators for the deputies who guarded the valuable property and the lives of the employed miners against repeated violence offered by officials and members of the miners' union during 1901 and 1902. The case was decided in both the Hopkins Circuit and the Kentucky Appellate courts in favor of sup-

Fashionable Clothes.

We are sure that any man who knows will not fail to appreciate the suits made by our makers with any foreman in their life in America. We don't care who you compare us with, you'll find better style, better tailoring, better fit and better quality in our predictions than you will find elsewhere at the price.

Murphy Brothers, Merchants Tailors, Chicago. Do not hesitate to try our clothes. We are represented locally by J. M. Victory, Agent.

pression of lawlessness at county expense, and the claims were ordered paid. Kentucky law on this point does not lie under the denunciation of Chairman Gray, as "un-American."

This carriage drivers of Rochester, N. Y., celebrated the passing of the old year by a strike that abridged everybody to walk and postponed several funerals. It was only a week after a similar performance at St. Louis. The grave may be peaceful but verily the road to it is uncertain in the city of the cabmen's union.

Signor Mascagni, the Italian composer, was arrested in Chicago, on the 25th, on a charge of embezzlement made by a former manager.

Success—Worth Knowing.

Forty years success in the South proves Hughes' Tonic a great remedy for Chills and All Malarial Fevers. Better than Calomel and Quinine. Contains no Arsenic. Unsurpassed. Try it. At Druggists. 25c and \$1.00 bottles.

Six thousand and twenty-six miles of railroad were built in the United States during 1902, which is greater than in any year since 1888.

To Cure a Cold in One Day

Take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Groves' signature is on each box. 25c.

A copy of "Won't You Come Home, Bill Bailey" should be sent the crown prince of Saxony.

The Best Prescription for Malaria

Chills and Fever is a bottle of Groves' Tasterless Chilli Tonic. It is simply iron and Quinine in a tasteless form. No cure, no price. 50c.

The Morocco tribes seem to have come to the conclusion that having been talking through his fez.

Stops the Cough and Works off the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No cure no pay. Price 25c.

At the last annual meeting of the Kentucky State Bankers' Association, at Paducah, the work of the Kentucky Exhibit Association was given its unanimous endorsement. President S. K. Speed appointed a committee of seven to unite with a committee of seven bankers connected with the Exhibit Association in calling on the banks and trust companies for contributions. These committees will send out a letter jointly next week, asking for subscriptions.

CALLED HOME.

Mrs. Martha Fall, an Aged, Christian Lady, of Mortons Gap, Dead.

Mrs. Martha Fall, an aged and highly beloved Christian lady, died at Mortons Gap, Friday morning at 7 o'clock. Death was due to consumption and the infirmities of age. The deceased was the widow of Rev. Jas. S. Fall, a well-known Christian minister, who died in 1896. He was formerly pastor of the church in Madisonville. The deceased lady was about seventy-four years of age and died childless. She was born near Russellville and has many relatives in that section. Rev. Philip King, of Henderson, was her nephew. The remains were taken to Madisonville Saturday morning at eleven o'clock, where she was interred in Odd Fellows' cemetery.

How Are Your Miners? Dr. Hobbins' Lung Tonic. Small bottle 25c. Large bottle 50c. Add 10c for postage. Address: The Hobbins Co., Chicago, Ill.

A GOOD WOMAN'S MISTAKE.

She Had an Erroneous Idea of Drummers. According to the One Here Mentioned.

In some way the little old woman engaged in missionary work had learned that the passenger with the silk cap on was a drummer, and after fidgeting about for a few minutes she walked up the aisle and sat down beside him and began:

"You will pardon me, sir, if I leave these tracts with you and ask you to give them your most serious consideration."

"Oh, certainly, madam," replied the drummer, as he received them in all politeness. "I see that they are tracts on the sins of lying, swearing, gambling and drinking. Were they especially prepared for me?"

"No, but I am told that you are a drummer."

"I see. My dear woman, I will read your tracts with pleasure, but I must tell you that you have made a sad mistake. I never told an untruth in my life and I never knew any other drummer to, especially drummers in my line. Why, I could have made a \$300 sale to-day by telling a white lie, but I preferred to lose the customer. You should know, madam, that we stick closer to the truth than any other class of men on earth. You have pained me deeply—very deeply."

"I didn't mean to," replied the good woman, as she looked a bit conscience-stricken. "You may not lie, but you do swear, don't you?"

"Never, madam—never. I once knew a drummer who swore, but he was not on the road long. His customers complained and he lost his job. I challenge any living man to come forward and say he ever heard me use a curseword. I can't do it—can't do it. And you will find all the rest just like me."

"But about drinking. I have always heard that drummers—"

"Not a drop, madam—nothing but tea and coffee and soft drinks. I have met two or three drummers who drank, but it was by the doctor's orders to save them from consumption. You couldn't have made a greater mistake, and I trust you will be prompt to apologize."

"I do apologize if I am wrong," replied the woman, "but don't you play cards?"

"You probably refer to poker," sighed the drummer, according to the Detroit Free Press. "I have heard of the game, and have often seen it mentioned in the papers, but a greater mistake you never made. Believe me, madam, when I tell you that I don't even know how many cards there are in a poker deck. I heard of two drummers who used to play poker, but one was killed by lightning. Do I look like a gambler?"

"Oh, no."

"I am glad of that, because I am not in it. I am a loving father, a faithful husband and a law-abiding man. I set aside five per cent. of my salary for the heathen, pay \$100 a year rent and have distributed thousands of tracts myself against vice. Just about half the men I meet for the first time take me for an evangelist. As I said, I will read and digest your tracts, and I will pass them on to lawyers, doctors, bankers and so on and help to speed the good work. I shall not, madam, for your friendly interest, and need as I am very busy writing hymns, I trust you will excuse me and never share a drummer's feelings by making the same mistake again."

STOLEN WATCHES NOT PAID

Formalities of Record in Paris Loan Shops So Rigorous as to Keep Thieves Awry.

Of watches alone there are received here and at the 22 branch of fices from 1,000 to 1,200 a day, about 350,000 a year, the average loan on a watch being 20 or 40 francs. The official assured me that in this great number of watches scarcely one in a thousand has been stolen, the fact being that people who have come dishonestly by watches or other property fight shy of the non-deposit. The reason for this was precisely made plain as we watched the formalities of record, and I realized how difficult it would be for any one to do business here under a conventional identity, writes Cleveland Moffett on Paris. Pawnshops, in the Century. Every citizen receiving a loan greater than 15 francs must produce some official document—an insurance policy, a citizen's voting card, a permit to carry arms, or a rent receipt bearing his signature and showing light upon his station in life. For loans under 15 francs the client is simply required to show an envelope sent through the mails to his address. All these facts, with various others, are duly inscribed upon huge record sheets, to the thicket of which the most-depicted exposes himself to a scrutiny that must be ungrateful to folks of shady antecedents. Indeed, certain persons make the grievance against the most-depicted, and declare the Paris system an impudent intrusion upon a client's privacy, which would seem a point badly taken if the client is an honest man.

New England Spinners.

In many country villages and isolated sections of New England and the middle states women still may be found who earn a living by spinning and knitting wool and by weaving and knitting rag carpets and rugs. There is quite a revival in demand now for neatly made rag rugs in some localities.—Detroit Free Press.

QUARTERLY REPORT

OF THE

EARLINGTON BANK

INCORPORATED.

AT THE CLOSE OF BUSINESS ON

31st Day of December, 1902.

RESOURCES.

1. Loans and Discounts.....	\$12,870.00

Eugene Field's

Views on Ambition and Dyspepsia.

"Dyspepsia," wrote Eugene Field, "often incapacitates a man for endeavor and sometimes extinguishes the fire of ambition." Though great despite his complaint, Field's ambition for distinction all his life. A weak, distended stomach can't digest your food. It needs rest. You can only rest it by the use of a preparation like Kodol, which relieves it of work by digesting your food. Best soon restores it to its normal tone.

Satisfying, Enervating.
Prepared only by E. C. DeWitt & Co., Chicago.
Two 50c. bottles contain 24 times 50c. size.
For sale by John N. Taylor.

On Broadway, New York, the rents paid are enormous. A flower store rents for \$15,000 a year, and a small cigar store for \$12,000 and a diminutive haberdashery for \$4,000. A bar room in a basement rents for \$15,000; a drug store north of Forty-second street brings on \$15,000; a billiard room leases for \$5,000; an utterly insignificant cafe is supposed to be cheap at \$3,000. The mystery is, how do the proprietors of these places make ends meet. One woman has a good thing at Forty-second street and Broadway. The William Astor estate leases to her the corner property at \$12,000 per annum, and she sublets it for \$25,000.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

J. J. CHENEY & CO., Proprietors, Toledo, O.
We, the undersigned, have known Dr. J. Cheney for the last 12 years, and believe him perfectly honorable in all business transactions and financially able to meet any obligations made by their firm.
West & Trux, Wholesale Druggists, Toledo, O.; W. H. Kinn, Wholesale Druggists, Toledo, O.; H. A. Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all Druggists.
Hall's Family Pills are the best.

Senator Morgan, of Alabama, has in mind a plan to encourage emigration of the South to the Philippines. His idea would be to offer them homestead lands in the islands, and special transportation to the islands. He has interested the administration tentatively in the plan, and T. T. Fortune, a negro, who has given much attention to the interest of his race, has been commissioned by the president to visit the Philippines and make report of the outlook for negro colonization.

Peters Creek, Ill., May 1: This is to certify that I have used Dr. S. J. Fowler's Family Pills for over 10 years for bowel complaints of different kinds and have found them a most reliable opportunity to test its merits and I believe it has saved the life of more than one of my family. I can never without it in my house. I unhesitatingly say it is the best preparation I ever used. J. H. Holway. For sale by all druggists in the country.

The Standard Oil Company is capitalized at \$100,000,000 and this year it declares a dividend of \$45,000,000. From 1897 to the present year inclusive its declared dividends have amounted to \$27,000,000. Its earnings were not enough, the oil trust has again raised the price of oil, and in New York the wholesale price is 15c cents a gallon.

Cures Measles, Skin Troubles, Cancer, Blood Poisons—Greatest Blood Purifier Free.

If your blood is poor, thin, diseased, hot or full of humors, if you have blood poisons, cancer, carbuncles, eating sores, acrofolia, eczema, itching, rashes and lumps, scabby, pimply skin, bone pains, catarrh, pneumonia, or any blood or skin disease, take Botanic Blood Balm (B. B. B.) according to directions. Soon all sore heat, aches and pains stop, the blood is made pure and rich, leaving the blood pure and rich, leaving the skin free from every eruption, and giving the rich glow of perfect health to the skin. At the same time, B. B. B. improves the digestion, cures dyspepsia, strengthens weak kidneys. Just the medicine for old people, as it gives them new, vigorous blood. Druggists, \$1 per large bottle, with directions for use. Sample free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble and special free medical advice also sent in sealed letter. B. B. B. is especially advised for chronic, deep-seated cases of impure blood and skin disease, and cures after all else fails.

Recent figures show that the total banking power of the United States, including capital, surplus, deposits, etc., of all banks, national, state and private, is nearly twelve and one half billion dollars. This is more than that of the United Kingdom and nearly double that of the entire continent of Europe.

PARKER'S HAIR BALM.
Prepared by J. C. Parker, Lowell, Mass.
For sale by John N. Taylor.

FLINCH.

BLUE G. BARD.

What keeps us up so late at night And makes us sleep till broad daylight?

What makes us strive so hard to beat And get angry when they say we cheat?

What makes us all our duty shirk And keep us from our daily work?

What causes one to think and stare And run his fingers through his hair?

What is the word we dread to hear When the end of our pile is near?

What makes our hearts faster when Our opponent lowers his pile of ten?

As we scan the board with eager eye What agony the last cry.

What's the most charming nuptial plan Ever evolved from the brain of man?

FOR FUN.

Come and Have a Hearty Laugh.

Make arrangements to go to the funniest show on earth on Saturday night, Jan. 10. The Home Talent Hypnotic Entertainment, for hilarious fun, takes the cake. Not a dull moment from the rise to the fall of the curtain. The most ridiculous and funny performances ever witnessed. The wondrous power of hypnotism will be demonstrated by the most subject of the opera house Saturday night. Admission 25c, children under 12, 15c. Tickets for sale at St. Bernard street. The Bee office, Taylor druggists and St. Bernard druggists. Doors open at 7:30. The trouble begins at 8 o'clock. Stage subjects free.

In the Four Weeks With La Grippe.

We have received the following letter from Mr. Ray Kemp, of Annapolis, Md.: "I was in bed four weeks with La Grippe and I tried many remedies and spent considerable time with physicians but I received no relief until I tried Foley's Kidney and Bladder Pills. Two small bottles of this medicine cured me and I now use it exclusively in my family." Sold by John N. Taylor.

Indians in large numbers are going to work along the railroads in northern Nebraska because of the self-supporting order of the Interior Department. Among those who applied for work is the son of the famous Sitting Bull, the most noted chief of the Sioux in American history. Young Sitting Bull handled his share with a courage and dignity that was impressive.

G. W. Butterfield writes: Laketon, Ky., May 1. I can sincerely recommend Hill's Specific as it cured several members of my family as well as my neighbors' family of different forms of Catarrh. It is the best medicine I ever used. Price 35c. For sale by all dealers in the country.

The miners closed their case last week before the anthracite coal strike commission, after about 160 witnesses for their side had been examined, covering twenty days testimony. The case for the operators was opened up, but little progress made, as the commission adjourned over for the holidays.

A Scientific Discovery.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the flaccid muscles of that organ and allowing it to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood.

Sold by John N. Taylor.

The Christmas mail from this country to Europe this year was the largest of the kind. Two big liners alone carried \$5,000,000 worth of goods amounting to \$67,000, and it is evident that millions of dollars have gone to the old country this year for Christmas presents from prospering relatives and friends on this side.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Kidney and Bladder Pills.

Sold by John N. Taylor.

The cost of the twelfth census is now figured out to have been \$12,841,818, and it is further added that this is an average cost of 15c cents per capita in the United States.

Tut's Pills

will save the dyspeptic from many days of misery, and enable him to eat whatever he wishes. They prevent

SICK HEADACHE, cause the food to assimilate and nourish the body, give keen appetite,

DEVELOP FLESH and solid muscles. Elegantly sugar coated.

Take No Substitute.

JOHN A. TWYMAN DEAD.

One of Hopkinsville's Oldest Citizens—Was a Relative of Jas. W. Twyman, of This City.

City Engineer John A. Twyman died Saturday night about nine o'clock, having never regained consciousness after the stroke of paralysis he received Friday afternoon.

The deceased was seventy-five years of age, and was a native of Hopkinsville. He was a member of a pioneer family, and inherited sterling virtues from sturdy, Christian ancestry. He was a devoted follower of the Master, and a lifelong member of the Baptist church.

The New Hampshire constitutional convention at Concord has voted in favor of woman suffrage. The prohibition element are supporting the amendment because the woman vote would add them to the ranks of the prohibitionists.

The Vermont legislature has just killed a bill allowing women to vote.

Wilmer Oxford, of Rock Creek, Ill., writes as follows: I have used Hill's Specific in my family for several years, and it has cured me and my family of all ailments. I find it to be an excellent remedy. I can never without it in my home. All families should keep Hill's Specific on hand at all times. Price 35c.

During the present year 236 persons died in England leaving estates valued at over \$600,000 each. The aggregate being \$29,225,710. The average age of these persons was nearly 60 years; one-fourth of them were eighty or over, and six were ninety. The chancellor or the exchequer reaped death dues amounting to \$90,588,570.

Content!

This is not a gentle word—but when you think how liable you are not to purchase for 75c the only remedy that is universally known and a remedy that has had the largest sale of any medicine in the world since the cure and treatment of Consumption and Throat and Lung troubles without losing popularity all the world over, you will be thankful we called your attention to it. It is a most extraordinary cough remedy made by druggists and others that are cheap and good for light colds, perhaps, but for severe Coughs, Bronchitis, Croup—and all the ailments of the throat and chest, it is a most extraordinary and coughing during the nights and mornings. It is a most extraordinary cough remedy. Sold by all druggists in the civilized world.

G. G. GANN, Woodbury, N. J.

An enterprising new religious paper just started in London called the Sunday Circle advertises for its first number a detective story "more exciting than Sherlock Holmes" and gives a bottle of water from the River Jordan as a premium to subscribers.

Step It!

A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances with Foley's Kidney and Bladder Pills. It affords perfect security from serious effects of a cold.

Sold by John N. Taylor.

Two men convicted of burglary near Rochester, Ohio, have received the severest sentences for such a crime on record in that state. One was condemned to serve for life and the other for fifty years in penitentiary.

The crowned heads of every nation, rich men, poor men and miners, all join in paying tribute to DeWitt's Little Early Riser Pills.

H. Williams, San Antonio, Tex., writes: Little Early Riser Pills are the best I ever used in my family. I unhesitatingly recommend them to everybody. They cure constipation, Biliousness, Sick Headache, Torpid Liver, Jaundice, malaria and all other liver troubles.

Sold by John N. Taylor.

England and Germany are looking to the United States for a graceful way in which to let go of the Venezuelan matter. We will try and get them out of their predicament, but they must be good hereafter.

You Know What You are Taking

When you take Groves' Tasteless Kidney Pills, because the medicine is plainly printed on every bottle showing that it is simply Iron and Quinine in a harmless form. No cure, no pay. 50c.

Interesting Relics.

Mr. Lee Hawkins, of this city, has just returned from a two weeks' sojourn in Tennessee near the battle ground of Fort Donaldson and has brought back with him many interesting mementoes of the "late unpleasants." He brought to this office a few pieces of ammunition, a four pound solid shot, several large pieces of different sized shrapnel, a lot of minie balls and some copper balls and a lot of pistol bullets, which he had picked up on the battle field.

Some of the bullets were misshapen from having been fired and others retained their original form. They are objects of great interest and are highly prized by their possessor.

But, thank God, the mission of these deadly missiles is ended and peace reigned supreme in these re-United States.

GRAPEVINE ITEMS.

Everything around here has gotten down to routine work again since the holidays.

Leslie Lafoon spent several days in Henderson, Kentucky, Xmas.

Ray Jones has returned from a visit to White Plains.

W. A. Niebet is repairing the house in his neighborhood occupied by Ben Neal.

W. T. Stinnett will soon move to his farm now occupied by Ben Nixon. He will probably move to Earlington.

Marion Rodgers, a former Hopkins county boy, but who for the past 18 years has resided in Texas, came home to spend the holidays. His stay in the West has been prosperous. He home at present is in Jackson county, Texas.

REMARKABLE CURE OF CROUP.

A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. My little boy, who is now 18 months old, had a severe case of croup. I tried everything I could think of, but it did not seem to do any good. I bought a bottle of it from A. E. Groves, of Goodwin, S. D., and I got home with it the poor baby could hardly breathe. I gave the first dose and in ten minutes he was better. I gave the second dose and in ten minutes he was better. I gave the third dose and in ten minutes he was better. I gave the fourth dose and in ten minutes he was better. I gave the fifth dose and in ten minutes he was better. I gave the sixth dose and in ten minutes he was better. I gave the seventh dose and in ten minutes he was better. I gave the eighth dose and in ten minutes he was better. I gave the ninth dose and in ten minutes he was better. I gave the tenth dose and in ten minutes he was better. I gave the eleventh dose and in ten minutes he was better. I gave the twelfth dose and in ten minutes he was better. I gave the thirteenth dose and in ten minutes he was better. I gave the fourteenth dose and in ten minutes he was better. I gave the fifteenth dose and in ten minutes he was better. I gave the sixteenth dose and in ten minutes he was better. I gave the seventeenth dose and in ten minutes he was better. I gave the eighteenth dose and in ten minutes he was better. I gave the nineteenth dose and in ten minutes he was better. I gave the twentieth dose and in ten minutes he was better. I gave the twenty-first dose and in ten minutes he was better. I gave the twenty-second dose and in ten minutes he was better. I gave the twenty-third dose and in ten minutes he was better. I gave the twenty-fourth dose and in ten minutes he was better. I gave the twenty-fifth dose and in ten minutes he was better. I gave the twenty-sixth dose and in ten minutes he was better. I gave the twenty-seventh dose and in ten minutes he was better.
